

hi, i think it is wrong for the fcc to help verizon charge \$6.00 per month to help verizon make more money. verizon is rich enough, my phone rates are high enough with out adding \$6.00 per month to help verizon get richer. what can be done to lower the fcc charge every month? i think that the fcc charge should be zero. please help the consumers by lowering our phone bills. thank you, gary solberg
